AN EKOSCAN COMPANY

---

EKOSCAN INTEGRITY GROUP (EIG)  
ADDS EDDY-CURRENTS TO THEIR  
TECHNOLOGICAL LEADERSHIP  
WITH THE ACQUISITION OF SG NDT

---

PRESS RELEASE

Paris, France, April 21<sup>st</sup> 2025

EKOSCAN INTEGRITY GROUP (EIG), A GLOBAL LEADER IN INDUSTRIAL ASSET INTEGRITY AND MONITORING TECHNOLOGIES, IS PROUD TO ANNOUNCE THE ACQUISITION OF SG NDT, AN INTERNATIONALLY RECOGNIZED EXPERT IN EDDY CURRENT TESTING (ECT) TECHNOLOGIES.

This acquisition marks a key milestone in EIG's growth strategy and integrates SG NDT into EIG's EKOSCAN business unit, significantly diversifying the Group's « [Diagnostic Technologies](#) » offering.

# UNLOCKING SYNERGIES TO DEPLOY BESPOKE SOLUTIONS FOR BOTH SCREENING AND HIGH-RESOLUTION NDT

SG NDT has built a strong international reputation as a trusted partner in Eddy Current technologies, recognized for its technical excellence and tailored solutions. This strategic alliance represents a major step forward in expanding Non-Destructive Testing (NDT) capabilities, perfectly complementing Ekoscan Integrity Group's existing technological offering.

By merging EIG's cutting-edge diagnostic solutions with SG NDT's decades of expertise in Eddy Current, this

collaboration unites two powerful and complementary players in the NDT field. The resulting technological synergy unlocks exceptional potential, enabling the delivery of comprehensive, bespoke solutions capable of detecting both surface and internal defects with unprecedented precision and accuracy in materials.

This strategic move also strengthens EIG's footprint in North America and Europe, while broadening its reach across a wide range of key industrial sectors.

**HERVÉ GAC**

Sales - Marketing Director & co-founder of SG NDT

*We are proud to be a part of Ekoscan Integrity Group - a strategic alliance that opens up new perspectives for both our companies. By bringing together our expertise and vision, we're strengthening our capacity to innovate and deliver even more tailored solutions to the industry.*

**ROCK SAMSON**

Founder & CEO of SG NDT

*We are absolutely thrilled to join forces with Ekoscan Integrity. This partnership represents an exciting new chapter that will allow us to expand together our capabilities, reach new markets, and continue delivering cutting-edge solutions to our customers worldwide.*

## DOUBLING DOWN ON INNOVATION

This acquisition is fully aligned with [EIG's mission to drive innovation in the NDT industry](#). With SG NDT now part of its ecosystem, EIG strengthens its position as a global leader in NDT innovation and reliability, enhancing its ability to meet the evolving demands of critical sectors such as nuclear, renewable energy, oil & gas, railway, aerospace, defense and industrial manufacturing.

SG NDT joins SOCOMATE and AUT in the "Diagnostic Technologies" business unit of the group, to provide state-of-the-art electronics for both ultrasound and eddy-current NDT technologies.

This partnership is poised to accelerate growth, drive cutting-edge innovation, and ensure industries can respond swiftly to emerging challenges, improving asset integrity and extending the lifecycle of vital infrastructure.

**HUGO CENCE**

Founder & CEO of Ekoscan Integrity Group

“

*With SG NDT joining Ekoscan Integrity Group, we are taking a step forward together to continue developing solutions that push the boundaries of innovation, enhance asset integrity, and provide the industry with the most advanced, reliable, and precise NDT technologies.*

”

## ABOUT EKOSCAN INTEGRITY GROUP

EKOSCAN INTEGRITY GROUP is a global leader in industrial technology solutions, offering a comprehensive portfolio of products and services for the assessment, monitoring, and protection of critical infrastructure. With the integration of SG NDT, EIG strengthens its technological leadership, expanding its capabilities to deliver cutting-edge inspection solutions across global industries. The Group generates €60M in annual revenue and employs over 300 professionals across three business units :

- » Diagnostic Technologies (EKOSCAN)
- » Technology as a Service (INTACT)
- » Sustainability Technologies (3X ENGINEERING)

## ABOUT SG NDT

Established in 2012 and based in Quebec, Canada, SG NDT brings over 35 years of combined technical expertise in the design and manufacturing of innovative non-destructive testing solutions. The company specializes in the development of Eddy Current Testing (ECT) technological platform.
